31st March 2016

Dear Anthony and Scott,

I write with reference to the recent work Acquire Business Sales undertook for us in the successful sale of Stratton Valves and Engineering Ltd.

At the beginning of the process my fellow Director (David Campbell) and I considered a number of agents to promote and handle the transaction.

We chose Acquire being impressed by the professional, flexible but personable approach. Acquire also offered, we believed, value for money.

Having now successfully sold the business we can confirm that Acquire met and indeed exceeded our expectations in terms of the service delivered.

We especially enjoyed working with both Anthony and Scott whom we found to be extremely supportive, personable and worked to a very high standard.

We would not hesitate in recommending Acquire Business Sales to anyone looking to sell a business.

Yours sincerely,

Phil Martin
Director
